Fractional Ownership Pricing and Details

DonnellyStandardbreds.com | Version 1.2

Experience Standardbred ownership with opportunities starting at just 1%. Ownership costs have two parts: a one-time purchase price for the share and an ongoing monthly fee based on the horse's current phase.

Monthly pricing

(Only 1 phase is billed at a time. Phases are not "stacked"; billing depends on the phase the horse is working in.)

Ownership phase	Monthly rate per 1%	What it means
Turnout	$20	Rest, recovery, or time away from active training.
Training	$28	Active training and preparation before racing.
Training and Racing	$38	Active training plus qualifying and racing.

Base pricing shown. Rates are subject to change and may vary by trainer. Final terms are governed by the applicable signed ownership agreement.

One-time ownership purchase

The purchase price equals the horse's listed value multiplied by the ownership percentage purchased. Example: $12,000 horse.

Ownership	One-time purchase	Turnout per month	Training per month	Training and Racing per month
1%	$120	$20	$28	$38
5%	$600	$100	$140	$190
10%	$1,200	$200	$280	$380

What the monthly fee covers

- Routine board, daily care, routine veterinary bills, shoeing, stall rental, harness rental, and ordinary farm expenses.
- Normal training and racing expenses when applicable to the horse's current phase.

Costs billed separately

- Transportation expenses.
- Staking, nomination, sustaining, and entry fees.
- Extraordinary veterinary expenses, including major diagnostics, treatment, surgery, or emergency care.

Transportation and other separately billed charges will be communicated to owners before billing whenever practical and allocated according to percentage ownership.

Purse and sale proceeds

Purse distribution. Purses are typically distributed by finish at 50% / 25% / 12% / 8% / 5% for first through fifth. From the horse's purse earnings, 5% is paid to the trainer and 5% to the driver. Remaining net proceeds are distributed according to percentage ownership. Actual distributions may vary by race, track, or jurisdiction.

Sale of the horse. Net sale proceeds, after commissions and sale-related fees, are distributed according to percentage ownership.

Important information

Transportation is not included in the standard monthly ownership fee. Transportation expenses will be billed separately as incurred and allocated according to each owner's percentage interest.

Risk acknowledgment. Racehorse ownership involves financial and equine risk. Racing success, purse earnings, resale value, and profit are not guaranteed. The signed ownership agreement controls all rights, responsibilities, charges, decision authority, and distributions.
